Resolution text

We, the Global Greens:

-Condemn the threat of criminalization, imprisonment and death sentence recently introduced in the Ugandan law, and call on the Ugandan government to immediately review this decision.

-Support the creation (wherever possible) LGBTQIA+ liberation (representative) groups within member parties and federations/states.

-Support the introduction of legislation (where elected representatives are able) to
enable LGBTQIA+ hate crimes to be prosecuted and recorded specifically.

-Commit to challenging homophobia, biphobia, transphobia, and all and any forms of discrimination within the Green movement and around the world.

-Uphold the resolution made at 2017's global congress to advance LGBTQIA+ rights and commit to continual progress of LGBTQIA+ equality.
