R19 El Partido Verde de Argentina realiza un llamamiento frente a la situación que amenaza al ecosistema en el Atlántico Sur

Proposer: Partido Verde Argentina

Resolution text

The Global Greens make a call:1) To the governments of Argentina, Brazil and Uruguay, to take urgent actions to protect the ecosystems of the South Atlantic Ocean, currently the richest fishing ground on the planet.

2) To the governments of Argentina and the United Kingdom, to resume the negotiations to find a peaceful and definitive solution to the sovereignty dispute of the Malvinas Islands, which includes the conservation of fishing resources and the defense of marine ecosystems.

3) To the United Nations and international organizations to strenghten the commitment for the conservation of fishing resources in the South Atlantic Ocean, and to address this issue at the highest level, in all the relevant forums.
