

R41 Emergency Resolution: LGBTQIA+ rights

Proposer: The Green Parties of: Aotearoa New Zealand, Scotland, Australia, Canada, Malta

Resolution text

1 The LGBTQIA+ of community is under attack around the world with growing rates
2 worldwide of violence and hate speech as well as homophobia and transphobia
3 directly aimed at the community.

4 Despite international outrage, the president of Uganda signed the “[Anti-](#)
5 [Homosexuality Act](#)” on May 26th 2023. It heavily restricts freedom of speech with
6 regards to human rights of queer people and criminalises certain same-sex acts
7 even with the death penalty. Further, [The Lemkin Institute for Genocide](#)
8 [Prevention has described the international ‘gender critical movement’ as](#)
9 [genocidal](#): “the gender critical movement simultaneously denies that transgender
10 identity is real and seeks to eradicate it completely from society.”

11 We call on the Global Greens to:

12 .

- 13 • Immediately condemn the anti-gay legislation, and the threat of the death
14 sentence recently introduced in Uganda, and call on the Ugandan government
15 to immediately reverse this decision
- 16 • Create (where they do not already exist) LGBTQIA+ liberation
17 (representative) groups within member parties and federations/states
- 18 • Seek to introduce legislation (where elected representatives are able) to
19 enable LGBTQIA+ hate crimes to be prosecuted and recorded specifically
- 20 • Commit to challenging homophobia, biphobia, transphobia, and all and any
21 forms of discrimination within the Green movement and around the world
- 22 • To uphold the resolution made at [2017’s global congress](#) to advance
23 LGBTQIA+ rights and commit to continual progress of LGBTQIA+ equality.
